

# MIAMI HEIGHTS ELEMENTARY SCHOOL STATE SCHOOL “Z-1”

Miami, Florida

This 46,000 SF design/build project includes design and construction of a two-story addition to an existing elementary school. This facility, which will serve kindergarten through primary grade levels, includes two new ESE classrooms, cafeteria/auditorium combination (cafeteria with full kitchen), and associated site work.

The new building has been designed to maximize the remaining site area for recreational use. There will also be a new faculty and staff parking area and the existing parking lot will be modified to provide additional visitor parking and drop off area.

**Owner**  
Miami-Dade County Public Schools  
Miami, Florida

**Architect**  
Harper Partners, Inc.
