

AMERISUITES HOTEL

Kissimmee, Florida

The Collage Companies was selected to construct this impressive 90,000 SF, six-story, 152-room hotel on two and one-half acres in Kissimmee, Florida. This project was the first building to be built on a future 70-acre development site, which hosts major retail shops, timeshare, commercial, and residential buildings. With its prestigious interior and exterior, AmeriSuites is a regal gateway to the future mini-city. The hotel is nestled between a World Class Convention Center and Opryland.
